PROGRAM MANAGEMENT

GANTT CHARTS

Reduce errors early in the lifecycle, by ensuring end-to-end traceability. In Traceability Matrix you'll be able to display a relationship to groups of entities through an interactive matrix view. Then find missing or improper traceability between those groups with Traceability Assist and Suspect Assist.

CALENDAR

Reduce risk and ensure project-wide quality with Intelligence View. Run a project check with over 60 different heuristics spanning all classes. Determine duplicates, find orphans, ensure relationships, and more. You'll easily be able to view and fix issues on the Intelligence View Dashboard.

KANBAN BOARDS

Reduce errors early in the lifecycle, by ensuring end-to-end traceability. In Traceability Matrix you'll be able to display a relationship to groups of entities through an interactive matrix view. Then find missing or improper traceability between those groups with Traceability Assist and Suspect Assist.

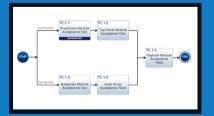

WORK BREAKDOWN STRUCTURES

Reduce risk and ensure project-wide quality with Intelligence View. Run a project check with over 60 different heuristics spanning all classes. Determine duplicates, find orphans, ensure relationships, and more. You'll easily be able to view and fix issues on the Intelligence View Dashboard.

WORKFLOW AND TASKING

Planning and keeping track of a team project can take hours each week, if you're not using [software name] to do it for you. The software makes it incredibly easy to create tasks, organize your workflow, and stay on top of what your whole team is working on each day.
